MINISTERO DELLE FINANZE

Il presente lavoro statistico contiene raggruppate per Circondario e per Provincia le diverse imposte che effettivamente si prelevarono nel 1862 per titoli erariali, provinciali e comunali tanto dalla ricchezza fondiaria, quanto da quella non fondiaria. — Esso è il risultato di un più grande lavoro eseguito per ogni Comune del Regno, che la ristrettezza del tempo non consente di pubblicare.

Affinchè le cifre che nel medesimo si contengono riescissero omogenee, si è creduto conveniente di comprendere tra le imposte provinciali anche quelle che in parecchie Provincie sono riscosse dall'erario dello Stato per essere di natura provinciale, come i 48 centesimi addizionali nelle Provincie settentrionali, e il fondo comune nelle Provincie meridionali; nelle altre Provincie del Regno così le imposte, come le spese di questa natura sono riscosse e sostenute dalle rispettive Amministrazioni provinciali.

Per analoga ragione non si sono computate le spese di riscossione, non essendo queste in tutto il Regno sopportate dallo Stato, ed essendo il relativo servizio grandemente diverso nelle varie Provincie.

In questi giorni in cui si devono porre in esecuzione le leggi approvate dal Parlamento intorno all'imposta sui redditi della ricchezza non fondiaria, ed intorno al conguaglio ed aumento dell'imposta fondiaria, non può sembrare inopportuna una tale pubblicazione, come quella che pone sott'occhio i gravami che sino ad ora hanno sostenuto tali due sorgenti di rendita, e quindi si facilita il confronto tra le imposte esistenti e quelle che stanno per succedere.

Inoltre potendosi ritrarre da tale lavoro facilmente i disparati rapporti in cui le imposte erariali stanno alle provinciali e comunali, sarà un tal fatto di guida per determinare, in seguito alle nuove leggi, in quali limiti deve contenersi la facoltà che i Comuni e le Provincie hanno di sovrapporre con addizionali alle imposte dirette, onde per gli aumenti portati alle tasse erariali non sia inceppato il libero sviluppo della ricchezza nazionale.

Dimostra pure questo lavoro che laddove il dazio di consumo, finora serbato ai Comuni esclusivamente, va a diventare in parte provento governativo, i centesimi addizionali sull'imposta fondiaria possono essere d'assai aumentati, prima che giungano alla misura delle altre Provincie; tanto più che la nuova imposta sui redditi della ricchezza mobile permetterà di ripartire anche su questa, e non sulla sola fondiaria, la sovrimposta occorrente a bilanciare le spese locali.

Intanto a dare idea delle discrepanze tra i rapporti suddetti basti l'osservare il seguente quadro che li compendia per compartimenti territoriali.

RAPPORTO per 100 tra le imposte erariali e le sovrimposte provinciali e comunali.

Il presente lavoro è diviso in due parti.

La prima parte comprende le imposte assolute che, come si è già detto, sono state riscosse nel 1862 in ciascuna Provincia e in ciascun Circondario del Regno; ed intorno a questa prima parte giovi l'avvertire che :

1° La popolazione e la superficie ivi indicate sono quelle che rinvengonsi nelle ultime pubblicazioni della Direzione di Statistica dipendente dal Ministero di Agricoltura, Industria e Commercio;

2° I dati finanziari si sono ricavati dai riepiloghi dei ruoli delle contribuzioni dirette, eccetto quelli relativi alle imposte provinciali e comunali delle Provincie Toscane e Modenesi che si sono avuti dai rispetti Prefetti;

3° Per le Provincie dell'ex-Regno Sardo, per le Lombarde, Parmensi e Modenesi i diciotto centesimi per ispesse speciali, si sono collocati tra le imposte provinciali;

4° Si è agito egualmente pel fondo comune delle Provincie Napoletane e Siciliane;

5° Nelle imposte erariali delle Provincie Romagnole sono comprese anche quelle per spese idrauliche e per l'estinzione del prestito nazionale;

6° Il decimo di guerra è sempre compreso tra le imposte erariali;

7° Le spese di percezione non sono mai state computate.

Nelle seconda parte si sono collocate le imposte relative alla superficie ed alla popolazione in corrispondenza alle assolute che rinvengonsi nella prima parte.

Questa seconda parte potrà riescire molto utile ai confronti tra le imposte di una località con quelle di un'altra, qualora si abbia sufficiente conoscenza delle due località che si paragonano.

22 giugno 1864.
